Americans Like Velvet as the French Like Satin—Black Velvet Gowns Very Popular—Blue Velvet in Fashion—Formal Home Gowns of Velvet—Three Savory Dishes—Kewpie Handkerchiefs a Novelty for Children.

Horoscope

THURSDAY, OCTOBER 22, 1914.

Astrology finds that the planets are favoring humanity today, for while the Sun and Neptune are mildly adverse in the evening, Uranus, Venus and Jupiter are strongly benefic in aspect during the hours of greatest business activity.

It should be a propitious time to engage in new business enterprises to invest, to speculate and to seek associates in daring enterprises. There is a lucky sign for opening shops or choosing offices.

When Jupiter is friendly judges, lawyers, scholars, legislators and men in commanding positions should benefit.

This aspect is a fortunate one for bankers, who will make great profits and extend their connections before a year is past.

Women should find this configuration a fairly fortunate one for business. It is prophesied that they will gain unusual positions in the financial world.

The day is a lucky one for weddings or engagements. The young will marry in great numbers within the next few months, it is predicted. Elopements will multiply.

There is a fortunate omen for American modistes and milliners, for all who beautify women and for those who sell trinkets for feminine adornment.

Hunters and trappers should find this a propitious time for procuring game.

The eighth of November has a most unhappy significance for Russia. Mars, passing the quadrature of the place of the last solar eclipse, is read as most forbidding. This planet also threatens London, Dublin, Paris, Amsterdam and Capetown next month.

February, when Saturn is stationary in Gemini, near the place of the Sun at the time of King George's birth, is said to be a critical time in the life of the English sovereign.

Persons whose birthdate it is have a happy omen for the year. They should prosper in business and enjoy peace in the home. The young will have romances in the coming year.

Children born on this day should be self-reliant and trustworthy. As they partake of the qualities of both Libra and Scorpio, they should be versatile. Many artists are born on this day, where Mars and Venus exercise ruling power. (Copyright, 1914, by the McClure Newspaper Syndicate.)

VELVETS POPULAR.

New York—Americans like velvet as the French like satin. Whenever there comes a season of velvet gowns we are satisfied. We do not stop to count the cost; we only know that we like the fabric, that we fancy ourselves well dressed in it; that it is the trump card which we like to play in the game of what-to-wear.

The original cost of a velvet gown when the fabric is of the best quality is something to be seriously taken into consideration, but the way in which this fabric shows the mark of every chair is its highest cost. It is difficult to give sufficient attention to velvet to keep it in good order; it is in the back, from shoulder to knees, that the worst usage comes, and where one pays the highest penalty for buying this material.

And yet we will wear it this season. Its beauty is undeniable, the good taste which should govern its use is not always forthcoming, but probably we shall see better results

pieces of bread of medium size, minus the crust. Place a little heap of the prepared fish on them. Then sprinkle over this some hard boiled white of egg which has been passed through a sieve, and after placing in the oven for a minute, send to the table topped by a stuffed olive.

Egg Savories.

Pass the yolks of three or four hard boiled eggs through a sieve and pound them with an ounce of butter and a tablespoonful of grated cheese. Season with celery salt, pepper and a little cayenne. Add a teaspoonful of warm butter. When it is hot, spread it on some triangular-shaped pieces of toasted bread. Heat carefully in the oven and serve sprinkled with chopped parsley.

Kewpie Handkerchiefs.

Kewpie handkerchiefs are a novelty that would delight children. They are small white linen squares with a printed border of kewpies, about the edge, in color.

Had Lung Trouble and Expected to Die

The many recoveries brought about by Eckman's Alternative are attracting wide attention. Read about this case:

"Gentlemen:—I was taken sick in November, 1908. I grew steadily worse. Had two consultations. The verdict was the fever had affected my lungs and that my case was hopeless; only gave me two months to live. My physician had tried most all kinds of treatment and none did me any good, so he asked my husband if he objected to him trying a proprietary medicine. I began your Alternative. I was in bed from November 30, 1908, until February 25, 1909, and was thought dying several times. Today I am healthier and stronger than ever." (Abbreviated.)

(Signed) MRS. H. K. BRILEY.
Eckman's Alternative is most efficacious in bronchial catarrh and severe throat and lung affections and upbuilding the system. Contains no harmful or habit-forming drugs. Accept no substitutes. Small size, \$1.00; regular size, \$2.00. Sold by leading druggists. Write Eckman Laboratory, Philadelphia, Pa., for booklet of recoveries.—Advertisement.

CHARGES MAN WITH

ATTACKING CHILD

Salt Lake, Oct. 21.—Charged with committing a statutory offense upon a six-year-old girl of his own race, Arthur Tatum, a negro high school student, was arrested by George Cleveland and Carl Carstensen, city detectives, early last night and lodged in the city jail.

Mrs. Lucy Washington, a domestic, 218 East Seventh South street, complained to headquarters that her little girl, Carmita, aged 6, had confessed to her that Tatum had enticed her into a barn in the rear of her home and there attacked her. When the negro was taken into custody at his own home, 813 South Second East street, he admitted being in the barn with the little girl, but denied any evil intentions.

The little girl was examined and treated by Dr. H. B. Sprague, police surgeon. The mother will swear out a complaint against Tatum today.

Harry Wallace, held in the city jail on suspicion of having attacked a little girl near Majestic park a week ago, was not identified by her at headquarters yesterday. The child would not say for certain that Wallace was the man, but admitted that his clothes were similar to those worn by her assailant. Wallace is being retained pending further investigation. He was arrested Monday night in an abandoned room of the old training quarters at Majestic park and failed to give a satisfactory account of himself.

But little progress in the investigation of the case of the young woman college student who was attacked at North South and West Temple streets Monday night was reported yesterday, though one good clew is said to have come into possession of officials.

COMMISSION LIKELY

TO IMPOSE PENALTY

Salt Lake, Oct. 21.—Unless G. A. Heman completes work on sidewalk extension No. 171 by midnight next Sunday, October 25, a resolution will likely be introduced in the city commission that he pay a forfeiture of \$25 a day for every day after October 25.

By unanimous vote the city commission yesterday instructed the city engineer to notify Heman that he must commence work on the contract within five days, and that the work must be rushed to completion without delay.

The action of the commission was taken after a number of protests had been made by residents of the district, which is west of the Jordan river. They declared that Heman had done some grading from time to time but that he was doing little or nothing to lay the sidewalk, and that unless the sidewalk was laid before winter the streets would be almost impassable.

Commissioner Shearman announced that he was getting tired of hearing complaints of contractors not doing the work in the time specified by the contract. Mayor Park remarked that he was weary of listening to complaints, and that it was time something be done. Commissioner Shearman announced that in the future he would vote to impose the forfeiture clause on every contractor who was behind in his work unless a good and sufficient reason was given.

"I think that if we take this action two or three times, contractors will come to understand that the city means business and that the people have some rights," said Mr. Shearman.

STARVING FOR THE BREAD OF LIFE

"Blessed Are They That Hunger For Righteousness."

A Famine in the Land—Many Hearts Crying Out For God—Faint For Want of Spiritual Food—Table of Divine Provision Well Filled—Bread of Life. Water of Life—A Satisfying Portion. "Fed on the Finest of Wheat."

(PASTOR RUSSELL)

October.—For his text today Pastor Russell chose the words, "Behold, the days come, saith the Lord God, that I will send a famine in the land, not a famine of bread, nor a thirst for water, but of hearing the words of the Lord."—Amos 8:11.

Notwithstanding the fact that during the past century Bibles have been printed and circulated by the million, said the Pastor, notwithstanding the fact that education has become so general that nearly everybody can read God's Word, nevertheless we are in the midst of the very famine specified by the Prophet. It seems almost incredible, he declared, that we should be famishing now with Bibles, when our saintly forefathers did not famish, though education was limited.

The secret lies in the fact that increasing intelligence has awakened our reasoning faculties along religious lines, and the result is the gnawing of hunger in our hearts. Our hearts and our flesh cry out for a living and true God. Realizing our own impotency, we more than ever feel our need of the Friend that sticketh closer than a brother.

Consequently many cannot find the refreshment from Scripture which their forefathers derived. Consequently the young men and the purest of heart in the world are repelled by the religion represented in the creeds of all denominations. They are hungry for the Truth, thirsty for the refreshment which they need. Intellectually many are wandering from sea to sea, desiring the Bread and the Water of Life, as our context pictures.

Scanning the creeds of all denominations, they find these practically alike as respects theories of eternal reprobation and damnation for all except the Elect. They even look to the heathen, and examine the Theosophy of India, the Buddhism of Japan and the Confucianism of China, seeking some satisfying portion of Truth.

In some respects they are like the prodigal son—far from home. They perceive the swinish content with the husks of business, money, pleasure and politics, but cannot satisfy their spiritual longings with these husks. They are thought peculiar because of their interest in spiritual things.

The Bread and the Water of Life.

Next was demonstrated that there is a famine in every denomination the world over. No one thinks of looking to the Bible for refreshment and strength. Higher Critics have branded it unreliable. Professors in all the great universities reprobate it and openly laugh at the thought of finding there either bread for the hungry or water for the thirsty.

Hungry hearts must learn, however, that there is only one satisfying portion under the sun—the living God, who has sent Jesus Christ to be the Bread of Life for mankind and His Message of grace to be the Water of Life. It is ours to call the attention of this hungry class to the Great Teacher who said, "My flesh is food indeed, and My blood is drink indeed; except ye eat the flesh of the Son of Man, and drink His blood, ye have no life in you." But scarcely will the intelligent of our day hearken to these words, so prejudiced are the minds by the fallacies which becloud their understanding. They neither see nor understand the goodness of God.

Conditions today are much the same as in Israel at the time of our Lord's First Advent. The Master's explanation is applicable now. He said, "Ye make the Law of God void through your traditions"—"the traditions of the elders." The traditions handed down from our forefathers really make meaningless the Message of God's Wisdom and Love sent us through our Lord, the Apostles and the Prophets. Those who still hold tenaciously to the creeds of the past are thoroughly blinded to the true teachings of God's Word; while, alas! the majority of independent thinkers, in rejecting the dogmas of the past, have rejected the Bible also, believing that the creeds truthfully represent the Word of God.

God's Word a Satisfying Portion.

The Pastor declared that it is this truth-hungry class that he addresses. He knows from experience their heart-longings, and the satisfaction which they crave he has received. In harmony with the Master's instructions, he aims to "bind up the broken-hearted, to comfort those that mourn."

As the Master gave His time to the instruction of the people in the doctrines of God's Word, so His faithful followers should not teach the precepts of men, but the Scriptures. Nevertheless, they must expect that the modern Scribes and Pharisees will grieve that they teach the people, even as during the First Advent the religious teachers opposed the Master.

ARREST BOYS WHO

SENT FALSE ALARMS

Salt Lake, Oct. 21.—After three months of diligent work and watchful waiting, C. J. Reading, superintendent of fire alarms for Salt Lake, last night caused the arrest of Eugene Hunt, aged 19, of 144 South Ninth East street, and Wilfred Crow, 18 years, of 42 South Tenth East street. The charge against the youths is that

of violating the ordinance relating to false fire alarms.

Both the police and fire departments have experienced no end of annoyance since August because of false alarms being turned in from boxes located in the southern and eastern parts of the city. For more than two months certain boxes have been under surveillance of members of the fire department, who kept in close touch with the police. Reading received information which turned suspicion against Crow and Hunt in connection with a false alarm which came in at midnight Saturday from Ninth East and Second South streets.

When arrested the young men confessed to having tampered with this and other boxes, giving as excuse that they "thought they were having a good time and liked to see the department make a run."

Superintendent Reading announced that he would prosecute the young men who are held in the city jail in default of bail.

YOUTH FOUND WITH

BULLET IN BRAIN

Payson, Oct. 20.—Joseph Francoene, aged 21, was found today with a bullet through his head. He was lying between two haystacks on his mother's farm here. He was unconscious and died while being rushed to the Provo general hospital.

Suicide is indicated. Lying by the

unconscious man was a large calibre revolver, recently fired. Young Francoene had exhibited evidences of melancholy for several days.

John H. Francoene stumbled over his brother between the haystacks just before noon. He summoned Dr. L. D. Stewart, but it was too late. The deceased was the son of Mrs. Leila Francoene.

AUTO TURNS TURTLE NEAR PARK CITY

Salt Lake, Oct. 21.—George W. McGregor of this city was probably fatally hurt and John C. Fleury, also of Salt Lake, was painfully injured when the auto in which they were riding turned turtle near Park City yesterday afternoon. McGregor was caught under the car and his back was broken. His recovery is doubtful. Fleury was thrown clear of the machine, but was cut about the face by flying glass.

McGregor is an employee of the Hampton Coal company. He resides at 2075 South Eighth East street. Fleury lives at 2560 South Ninth East. He is a teamster by occupation. A blowout on the front left tire caused the accident. The men were driving into the southern part of the town and had just turned out for a passing wagon when the tire exploded. The car left the road and turned over. Elmo S. Culbert of the Lambert Paper company, this city, arrived on the scene a moment later in his automobile and found McGregor and Fleury unconscious. He took them to the Mtners' hospital in Park City, where tonight McGregor's condition is reported as critical.

The two men left Salt Lake at 7 o'clock yesterday morning in an auto to attend to personal business in Park City.

Hemstitching done at Singer Sewing Machine Shop, 2338 Wash. Ave.—Advertisement.

IMAGINATION, OF COURSE.

Sheriff Lorange and his efficient force have been busy this week caring for the horse of I. W. W.'s that have been touring eastern Montana for the past week or more. Altogether about 250 of these undesirable have been intercepted by the sheriff and started west from this point. In only one instance has it thus far been necessary for the local force to make an arrest, and that was in the case of an I. W. W. organizer who objected to having

his "legion" taken in tow by the sheriff.—Havre Plaindealer.

NOT SO TERRIFYING.

She "Listened In" On the 'Phone

She Heard An Unknown Voice And Caught A Tragic Message

The first thing she knew she was in the middle of a mystery that was shaking the community to its foundation—Beautiful Sylvia Hesketh, only daughter of the wealthiest family in town, had been found dead at midnight beside a lonely country road miles from her home. The most famous detectives and the shrewdest reporters missed the clue. But the girl at the 'phone got it. Her own story of one of the most baffling mysteries on record begins
